关于我们

About Us

- ▶ Founded in 2014, the company Qingdao BABYCAT Kit Co., Ltd is a family owned business, specialized in manufacturing tofu cat litter in prime quality, furthermore we are active in the trading of bentonite and other pet products. Our factory has been audited to meet ISO9001 and BSCI certification which make us approved vendor for major international retailers and pet specialty chains. Embraced by pet owners worldwide, our exporting orders are rapidly gained from global markets such as Southeast Asia, Australia, Europe, North America and South America. Our maximum production capacity is 1,000 tons per month. Our vision is to become one of the major industry leaders in tofu cat litter and our priority is to supply high quality products with excellent value and better performance, we promise to use only food grade ingredients with nature material. We aim to bring the cat parents all over the world with Qingdao plant cat litter.

Product Features

The introduction of tofu cat litter

Tofu cat litter is made of pea fiber and edible starch. It is safe, environmentally friendly, non-toxic, dust-free, not easy to cause pollution, good deodorization effect, good water absorption, quick clumping, easy cleaning and can be flushed into the toilet directly.

Common bentonite cat litter, which is in fact the ore with high dust, may hurt the respiratory tract once eaten by cats, and will seriously affect their digestive tracts.

Tofu cat litter has no dust, and is made of edible environmental material, even if eaten by the cats, It will not harm their health.
